- Made In The USA.
- Lifetime Replacement Warranty.

Bed MadeEZ® MATTRESS LIFTER

Made of a friction resistant, durable polypropylene, the Bed MadeEZ Mattress Lifter eliminates repeated lifting and alleviates strain to the back, shoulders and neck when changing linens. With an angled, ergonomic design it effortlessly lifts the mattress as the device is inserted between the mattress and box spring. The mattress is then held safely in an elevated position on the ledge giving ample working room to tuck in sheets, blankets and other bedding. Made in the USA.

Bed MadeEZ® Mattress Lifter

PRODUCT	SKU#	CASE QTY.	CASE WEIGHT	CASE SIZE
Bed MadeEZ	11151	6	7 lbs.	12x12x12
Bed MadeEZ	11151	12	13 lbs.	16X16X 8
Bed MadeEZ	11151	24	26 lbs	16X16X16

Note: For heavy mattresses or no-flip mattresses, insert the Bed MadeEZ at a slight angle with the tip pointed upward.

- 1** The inclined wedge design separates and lifts the mattress 4"-5" as it slides in, reducing body strain incurred with the twist and lift motion on each corner of the mattress.
- 2** The level ledge holds the mattress in a raised position alleviating pressure to the lumbar spine and leaving both hands free to make the bed.
- 3** Curved handle allows the user to grip the Bed MadeEZ at a natural wrist position providing greater comfort, strength and transfer of energy.
