100% white cotton weave gusset expands when zipper is opened.

Description

Re-imagine sleep with our revolutionary upgrade in the pillow world! The right pillow support makes all the difference when trying to get a good night's sleep. Our adjustable pillow offers three comfort levels in just one luxurious pillow. Customize from firm, to medium, to soft support using our unique, hidden zipper system.

With CKI's adjustable pillow, there is no need to remove anything from the inside of the pillow to get the desired comfort. Instead you use the outside zippers. For firm support, simply zip both sides. For medium support, un-zip one side. For soft support, un-zip both sides. It's that easy!
