

**It's A Winner!**  
Independently studied by ergonomic labs such as UC Berkley, the tool is proven to eliminate strain without slowing down bed making.

## BED MadeEZ® BED MAKER

*Tucks Sheets And So Much More!*

### DESCRIPTION

The **Bed MadeEZ** is a simple tool that lifts and holds up the mattress while bed linens are changed. Use it to remove sheets easily, tuck in sheets and blankets and get into the difficult corners. There are so many ways the **Bed MadeEZ** can make changing sheets a breeze. With just a flip, it can even be used to get on the last corner of a tight fitted sheet. No wonder this tool is recommended by OSHA.

Made of a friction resistant, durable polypropylene (made from 30% recycled plastic), the **Bed MadeEZ** is a sustainable product made in the USA and has a lifetime warranty.

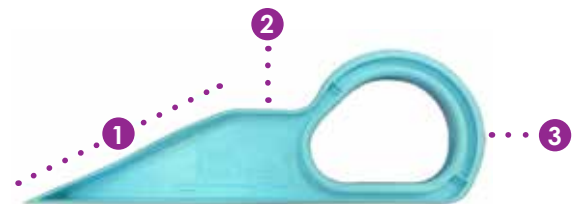

See instructional video at [www.ckisolutions.us](http://www.ckisolutions.us)

### FEATURES & BENEFITS

- Takes the pain and hassle out of bed making.
- Recommended by OSHA.
- Patented and Made in the USA.
- Allows for easier maneuvering around corners, headboards and side walls.
- Made with 30% recycled plastic.
- Lifetime replacement warranty.

- 1 The narrow tip is used for tucking linens and blankets. The inclined design lifts the mattress 4"-5" as it slides in, eliminated lifting of the mattress.
- 2 The level ledge holds the mattress in a raised position leaving both hands free to make the bed. It will lift any size mattress.
- 3 The curved handle is ergonomically designed to allow the user to grip the Bed MadeEZ® at a natural wrist position, with one or two hands.
