

## LOCK-N DISSOLVABLE LAUNDRY CONTAINMENT BAGS

*Laundry Bag Dissolves Right In The Washer!*

### FEATURES & BENEFITS

- Eliminates use of plastic bags for laundry. Dissolves in hot water.
- Economical way to reduce the risk of transference of bed bugs, disease and contaminants.
- Meets or exceeds the guidelines and regulations of:
  - U.S. centers for disease control and prevention (CDC)
  - U. S. occupational safety and health administration (OSHA)
  - Healthcare laundry accreditation council (HLAC)
  - NBS hospital laundry arrangements for used and infected linen

**THE BAG DISSOLVES  
IN THE WASH!**

### DESCRIPTION

**Lock-N Dissolvable Laundry Bags** work like magic. Simply place your soiled laundry in the bag and tie it with the provided tab. Toss the bag with the soiled laundry into the washer and **voila!** The bag dissolves.

The 100% soluble and biodegradable **Lock-N** bags can even be washed with other contents. The bag completely dissolves in hot water temperatures of 149°, leaving no residue.

Originally designed for the healthcare industry, this proven product has been used by hospitals for years.

**Lock-N Dissolvable Containment Bags** are made of a polyvinyl alcohol compound, plasticizer, and organic additives. This amazing bag dissolves in the washer with no residue on the clothing, the laundry machine or waste water systems.
