Mattress Protectors

Easy To Use in a Fitted Sheet Design.

Mattress protectors are the practical solution when bed bugs are not a concern. Using a mattress protector is as easy as using a fitted sheet. Both designs are coated with a high temperature barrier film, ensuring strong protection against liquids and allergens, yet are breathable and comfortable to sleep upon.

The popular **Sleep Supreme** Mattress Protector has an absorbant and sophisticated double knit top. All 5 sides offer valuable protection against liquids and allergens.

The **Pur-Poly Mattress Protector**, the more affordable protector, also offers allergen and waterproof protection. It is smooth, sleek, quiet, and releases stains quickly.

Both the **Sleep Supreme** and **Pur-Poly** can be washed in hot water.

Sleep Supreme Double Knit Protector			
PRODUCT	SKU#	CASE QTY .	CASE WEIGHT
